Experience

Appinop Technologies | Jaipur, Rajasthan
ReactJS Developer Intern | 02/2022 – 05/2023

- Worked as a front-end developer, and created multiple web pages according to the requirement of various projects assigned. Improved the UI of multiple web pages using ReactJS, JavaScript , CSS3 .
- Developed responsive Single Page Web Applications and created UI using ReactJS, React Redux, React Router and Material UI library.
- Designed test cases, demonstrated the functionalities incorporated, implemented modifications suggested by designers and the client for UI and functionality changes.
- Collaborated smoothly with backend to make seamless and errorless connection with API's, and backend technologies to complete the Full-Stack applications.

Komet | Bengaluru, Karnataka
Software Development Engineering Intern | 05/2022 – 07/2022

- Developed the backend of Komet app from scratch. Worked on user authentication services on backend.
- Created and Integrated multiple WebAPIs in backend, to make the transactions smooth and effective.
- Contributed to software development, designing test cases, demonstrating the functionalities incorporated, implementing modifications, testing, and maintenance.

Projects

Title: Foodie

- **Duration:** Mar – May '22
- **Summary:** This app makes it easier for users to order food from their preferred restaurants. This web app is sleek and entirely responsive. Users can add their favourite things to the cart, and based on what they have chosen, the total price is computed. This application can also have a payment gateway.
- Technologies Used : ReactJs, Firebase, TailwindCSS.

Title: ARK FIT
- **Duration:** Jan – Feb '22
- **Summary:** This fitness app enables the user to practice a variety of workouts based on their own needs. The user has access to exercises for various body parts as well as YouTube videos of each exercise to help with learning.
- Technologies used: ReactJs, Tailwind CSS, RapidApi.
